Wembley Quintain London

Contract Summary:

The objective of this development is to transform Wembley Park into the largest build to rent development site in the UK aimed at establishing 5,000 homes.

The first chapter of Wembley Park's transformation into a new destination for London is complete and is alive with a unique combination of community and attractions. These include the Capital's only designer shopping outlet, a West-End standard Hilton Hotel and the iconic SSE Arena, Wembley all right next to the world-famous National Stadium. 1.8 million sq ft of construction has been completed to date, with a further 6 million sq ft left to deliver.
